Albums

Storybook Photography is proud to exclusively offer Albums from KISS. These albums are second to none in quality and value. Every album, from the 4" to the 12", is made with true photographic printing on the finest Fuji Crystal Archival paper. Pages lay beautifully flat, so none of the image is lost in an unsightly fold. A unique micro-fold system prevents prints from bending and discoloring in the crease. KISS albums are a true work of art and the perfect albums to showcase your love.

Base price for all KISS albums includes: Custom design with up to two revisions (Online proofing system allows for easy client viewing and revision submissions,) printing and binding for 10 spreads (20 page sides,) a cloth dust cover and standard shipping.
